

LOCAL ACTIONS PROGRAM IMPLEMENTATION ADVISORY GROUP - MEETING AGENDA

Date: December 16, 2020

Time: 1:00 pm to 5:00 pm

Location: [Zoom online meeting](#) and phone call (see meeting invite for details)

TIME	TOPIC
	<p>Welcome/Introductions</p> <p>Purpose of Meeting</p> <ul style="list-style-type: none"> • Review Implementation Advisory Group work plan and schedule • Preview information from Technical Advisory Group on revised estimate of future floodplain (i.e., 100-year flood in 2080), including structures at risk and summarize areas that are most significant • Revisit land use recommendations/results of surveys/conversations with local governments to understand if recommendations to limit development in potentially flood prone areas are sufficient • Introduce research on regional/national programs using structure relocation, acquisition, and retrofits for flood damage reduction.
1:00 – 1:20 PM	
	<p>Implementation Advisory Group Work Plan and Schedule</p> <ul style="list-style-type: none"> • Review and discuss Implementation Advisory Group work plan and schedule
1:20 – 1:35 PM	
	<p>Floodplain Management Recommendations / Land Use Implications</p> <ul style="list-style-type: none"> • Revisit land use recommendations and results of surveys/conversations with local governments to understand if recommendations to manage development in potentially flood prone areas are sufficient to achieve the Chehalis Basin Board Local Actions Program outcomes • <i>Questions for IAG: Are the existing recommendations to manage development in potentially flood-prone areas sufficient relative to achieving the Chehalis Basin Board approved outcome for the Local Actions Program regarding preventing future at-risk development? Are there additional land use and floodplain management recommendations that</i>
1:35 – 2:30 PM	

should be considered? Are there other measures or actions that should be considered to accomplish the Local Actions Program outcome?

2:30 – 2:45 PM

Break

2:45 – 3:45 PM

Current and Future (100-year flood in 2080) Floodplain Estimates

- Preview information from Technical Advisory Group on revised estimate of future floodplain (i.e., 100-year flood in 2080), including structures at risk and summarize areas that are most significant
 - *Questions for IAG: What are the potential implications of managing to the future 100-year, 2080 floodplain? What are the most important/necessary land use recommendations?*
-

3:45 – 4:45 PM

Research on Community Buyout and Relocation Programs

- Introduce research on regional/national programs using structure relocation, acquisition, and retrofits for flood damage reduction
 - *Questions for IAG: Which of the communities and buyout/relocation programs researched to-date most interest you as being potentially relevant to conditions in the Chehalis Basin (or subareas of the basin)? Are there other communities or efforts that would be valuable to research between now and January? What else would you like to know about those communities or efforts (e.g., what kind of qualitative information should we look for in interviews that would be useful)? Where in the basin might buyout and/or relocation approaches best apply?*
-

4:45 – 5:00 PM
